Patents and trademarks

The inclusion in *The International Pharmacopoeia* of any product subject to actual or potential patent or similar rights, or the inclusion of any name that is a trademark in any part of the world does not and shall not be deemed to imply or convey permission, authority, or licence to exercise any right or privilege protected by such patent or trademark, including licence to manufacture, without due permission, authority, or licence from the person or persons in whom such rights and privileges are vested.

Reference to a particular trade name in the description of certain materials used in assays and tests does not imply that other equivalent materials are not also suitable.
